Sir:

In response to the Restriction Requirement of July 15, 2005, applicants elect compound 58 of Page 18 (Example 177). Applicants request that compound 53 (Example 176), which is an isomer of compound 58, be examined with compound 58. Claims 1 and 4 both read on these compounds; however, applicants elect Group III with traverse.

Respectfully submitted,

Martin L. Katz
